Description: The geometric shapes and natural forms, captured with exceptional precision in Ernst Haeckels prints, still influence artists and designers to this day. This volume highlights the research and findings of this natural scientist. Powerful modern microscopes have confirmed the accuracy of Haeckels prints, which even in their day, became world famous....

Review: Im very much interested in geometric patterns, nature (mostly flowers and sea-life), and intricate design, so I thought I would pick this book up for my reference library in my art studio. Normally when I receive new books I kind of shelve them and look through them when I have a chance, but as soon as I took this out of the box I wound up looking through...
